

Controlled Substance Abuse Policy

NSSEO maintains a smoke- and alcohol-free environment. NSSEO regards alcohol and other substance abuse, addiction, or dependency as it does any other behavioral/medical problem. NSSEO will cooperate with all segments of the community in making assistance available to individuals who develop alcohol or other controlled substance abuse-related disabilities. Students' use of, possession of, or traffic in alcohol or other controlled substances on school property or at school-related activities is prohibited. Students suspected of such activities will be handled in accordance with approved district/cooperative policy.
